2. Signature Motifs

Coral Dash Separator

8px × 2px coral bar (#FF4530) + uppercase DM Sans label with 0.2em tracking. Used before every section heading across the site.

Nav Hover Dot

6px coral circle, opacity 0 !' 1 on hover, positioned -12px left of the link text.

Rounded Pill CTA

Coral fill (#FF4530), white text, border-radius 9999px, padding 1rem 2rem. Hover: darker coral (#E03D2A) + scale(1.05) with 0.3s ease.

Curved SVG Underline

SVG arc under the hero accent word. Path: "M0 10 Q 50 20 100 10", stroke #FF4530, strokeWidth 4, strokeLinecap round.

Opacity Muting

Body/secondary text uses #111111 at 70% opacity — not a separate grey — keeping the palette strict to 3 colours.

Tag Component

Default: grey border + muted text. Active: coral border + coral text. Used for work index filters and project category labels.
